rive gauche

charly

order.nr. 30234; balance bicycle for children

the bentwood body of the balance bicycle is made of solid native ash wood and is cut to its final form after steam bending, careful storage and drying. the body frame has been reduced to its basic functionality and has a clear lacquered finish. the saddle, adjustable to two height levels and made of grey lacquered layered birch wood, and the steering handlebar and wheels are later fitted onto the frame. Its adjustable steering stop prevents extreme and uncontrolled movements of the handlebar thus keeping the bicycle safely on track. the two freely turning wooden rims are high-pressure laminated in white and easy to clean. thin special use tyres made of robust and pliable thermoplastic rubber allow for comfortable movement of the small cyclist even without pneumatic tyres. the product will arrive in a white transport box and fully mounted. SIRCH manufactures in germany as a matter of course.

deadweight: 4.5 kg. max. load: 36 kg. dimensions: 86 cm x 52 cm x 24 cm (length x height x width). seat height: 33 cm and 36 cm. height of steering handlebar: 52cm.
